2020 CONTENTS

A Passion for Precision Year after year, the quality of the world of plastic model kits continues to grow. Academy leads the industry with our Passion for Precision. We will go to any lengths to make the best models in the world. Our models all start with extensive and in-depth research, making the final models the most accurate available. We know no compromises in this quest for information. Our research includes original blueprints, hundreds of photos, precise measurements, and more. The model design does not start until the research is complete, ensuring a truly great model. It all comes down to A Passion for Precision!

Technology Fuels Our Passion Just having great research is not enough; a great model comes from great design. At Academy, our designers have the heart of a modeler. For Academy designers, making great models is not just a job, it's a passion. This passion drives them to be the best they can be and make the world's best models. Academy designers work with the latest CAD (Computer Aided Design) techniques and 3-D modeling programs, carefully integrated into the product development of every model. These skilled designers and their sophisticated equipment create precision and realism previously unattainable in plastic model kits.

The Sum of Our Parts The experience of building a model is so much more than just gluing parts together. It can only be understood by those who have a passion for making and building models. At Academy, we have this passion. We know that each model must have the right blend of the most accurate parts and the best construction procedure. Every Academy model provides the modeler with the satisfaction and pleasure of the best building experience. So whether modelers are building the railings along the deck or attaching the bombs under the wings, they will realize the joy of the modeling experience. At Academy, we have the Passion.

NEW ITEM
2020

USN F-14A VF-143 "PUKIN DOGS"
Supersonic, twin-engine, variable-sweep wing fighter used by the U.S. Navy as an air superiority fighter, fleet defense interceptor and on tactical aerial reconnaissance missions.

USN FIGHTER F3F-2
U.S. Navy's last biplane fighter served between wars; used for training purposes during WWII.

USMC PBJ-10 "THE FLYING NIGHTMARES"
Four engine bomber used by U.S. Marine Corps for patrol and bombing missions in the Pacific theater during WWII.

USN F/A-18F "VFA-2 BOUNTY HUNTERS"
Modern U.S. Navy multirole jet fighter; a redesign of the two-seat F/A-18.

USAF F-15E "48TH FIGHTER WING"
Modern U.S. Air Force twin-engine, tandem seat, multirole jet fighter.

USMC F-35B
The world's first supersonic STOVL stealth multirole aircraft operated by the current USMC.

USAF B-52
Modern U.S. Air Force's long-range strategic bomber.

F-16I SUFA
The Direct Action Penetrator (DAP) is one of the most awesome and/or awesome platforms operated by the US Army's Special Operations Forces.

AH-60L DAP
The Direct Action Penetrator (DAP) is one of the most awesome and/or awesome platforms operated by the US Army's Special Operations Forces.

1/32 F-16I SUFA

1/48 USMC AH-1Z "SHARK MOUTH"

U.S. ARMY RQ-7B UAV
Two figures & display stand included. It carries a uniform of figure with a school.

MH-60S HSC-9 "TRIDENTS"
Extensive cockpit detailing. Detailed jet engine and rotor assembly. MCP's 19-inch Rocket Launcher & AGM-114 Hellfire included. New parts for U.S. Navy included.

USMC AH-1Z "SHARK MOUTH"
Newer upgrade series of AH-1Z attack helicopter used by USMC. Features 23mm rotary cannon, AGM-114 and AGM-119 Hellfires, as well as two types of rocket pods. Please consult parts. Work for variety included.

SCALE

ROYAL AUSTRALIAN AIR FORCE F-111C
The first of the F-111 series, this jet was designed as a carrier-based plane with the ability to be refilled for other operations.

MESSERSCHMITT Bf109T-2
Reproduction of by extended main wings of the type Bf109T-2. Wing tip area included.

MESSERSCHMITT Bf109K-4
Reproduction of Bf109K-4 fuselage. Reproductions of machine gun barrel and Pist tube in metal.

F-4B VF-111 "SUNDOWNERS"
Precisely reproduced as a variety of Phantom Type B of U.S. Navy used during Vietnam War. Reproduction of panel markings, rotor area & the main wings. Perfect set for air wings and jet-to-ground weapons.

500D POLICE HELICOPTER
This version of the 500D series helicopter was built for the police service. This kit includes a policeman figure and a motor cycle.

500D TOW HELICOPTER
First flown in 1976, engine modifications gave this helicopter its nickname: "The Goose One." The 500D was equipped with a tow missile system.

F-14A
The U.S. Navy's premier carrier-based fighter, the F-14A Tomcat is capable of Mach 3 flight and low-speed engagements thanks to its variable-geometry wings.

F-16A/C
A single-seat fighter, this lightweight jet is one of the United States' best air-to-air combat fighters.

AH-64A
This highly agile and well-armed U.S. Army attack helicopter first flew in 1976, saw extensive action in both Operation Just Cause in Panama and Operation Desert Storm in the Middle East.

M-29A FULCRUM A
This supersonic and superbly well-ground attack fighter, first flew in 1955 and shows many similarities with the American F/A-7B Hornet.

F4U-4B
Many planes have borne the name but none have been as devastating to the enemy as the carrier-based World War II F4U-4B.

AH-64D LONGBOW
The Longbow is a fully updated version of the AH-64 including the highly advanced Long-bow/Hellfire target acquisition system.

S-27 FLANKER B
The S-27 was designed as a long-range interceptor to replace the outdated Mi-21.

SPITFIRE MK. XIVc
The World War II classic, the Spitfire was vital in ensuring the skies over London during the Battle of Britain.

P-40C
Before the U.S. entered World War II, many American pilots flew these planes in support of the Allied war effort. Collectively they were known as the "Flying Tigers" for their unique paint schemes.

P-38 COMBINATION VERSION
Optional markings and parts for different variations of Fighter Bomber: Pathfinder, Drop Snout or Photo Recon.

TBM-3 "USS BUNKER HILL"
Fully engraved panel lines & rivet details. Detailed cockpit & landing gear. Authentic markings included.

USAF F-4C "VIETNAM WAR"
C-type used during Vietnam War by USAF. Various armaments of air-to-air and air-to-ground combat. Reproductions of typical side view and heavy tail of C-type. Includes three pilot figures included.

USAF F-15E "SEYMOUR JOHNSON"
Fully engraved panel lines & rivet details. Highly detailed cockpit interior & landing gear. Sniper XR, AIM-120, AIM-9, BBQ-31, GBU-12, etc. variety armament & accessories included.

USN F-4J VF-84 "JOLLY ROGERS"
Accurately reproduction of F-4J type served during Vietnam War by U.S. Navy. For your statements of air-to-air and air-to-ground combat. Reproductions of typical low and heavy tail of J-type.

MIG-21 MF "SOVIET AIR FORCE & EXPORT"
Supersonic fighter developed by Soviet Air Force. Accurately detailed panel lines & rivets. Precisely engraved cockpit & landing gear. No-armor surfaces and air-to-air weapons included. Includes full marking options.

RAF EXPORT HAWKER HUNTER E6/FGA.9
Subsonic Jet Aircraft developed by United Kingdom. Can be built as F4 or FGA.9. Accurately detailed panel lines & rivets. Precisely engraved cockpit & landing gear. Includes air markings options.

FBF-1/2 "USS TARAWA"
Accurately detailed panel lines and rivets. Precisely engraved cockpit & landing gear. Can be built as FBF-1 or FBF-2.

POLIKARPOV I-16 TYPE 24
Accurately detailed panel lines. Precisely engraved cockpit, instrument panel & landing gear. Various air-to-air surface rockets and machine guns. Includes four World War II Russian military marking options.

1/48 USN F-4J "VF-102 DIAMONDBACKS"

USMC F-4B/N VMFA-531 "GRAY GHOSTS"
Precisely engraved cockpit & landing gear. Accurately detailed panel lines & rivets. Various air-to-air and air-to-air weapons included.

MESSERSCHMITT Bf109G-2 "JG 27"
WWII German Luftwaffe's fighter. Includes 20mm MK108 cannon, propeller, landing gear & air filter for engine in landing position. Built as G-4 or G-2 variant. Carries eight marking systems.

USN F-4J "VF-102 DIAMONDBACKS"
A full complement of air-to-air and air-to-surface armaments. Precise reproduction of the F-4's target rack landing gear wheels. Highly detailed cockpit and landing gear. Accurately engraved, precision panel lines and rivets. Three pilot figures, one standing, two seated.

USAAF B-25D "PACIFIC THEATRE"
American two-engine, medium bomber manufactured by North American Aviation (NAA).

FOCKE-WULF TA183 HUCKERBEIN
This WWII German jet fighter design was never fully developed. Masking seal for clear parts included. Contains photo-etched parts.

USMC SBD-5 "BATTLE OF THE PHILIPPINE SEA"
WWII US Navy dive bomber. Assemble with dive flap closed or landing or full opened. Masking seal for clear parts included. Photo-etched parts included.

V-156-B1 "CHESAPEAKE"
America's carrier-based dive bomber used by the Royal Navy's Fleet Air Arm for anti-submarine patrols early in WWII.

1/48 USMC SBD-1 "PEARL HARBOR"

USMC SBD-1 "PEARL HARBOR"
Carrier-based dive bomber used by the U.S. Navy during early stages of WWII.

A-10A "OPERATION IRAQI FREEDOM"
This A-10A was used for ground attacks as well as operations during the Iraq War.

JU87G-2 STUKA "KANONNEN VOGEL"
This canvas-wing dive bomber, initially flown in 1936 and ground attack aircraft tested through World War II.

F-8P "FRENCH NAVY SPECIAL"
Fully engraved panel lines & rivet details. Highly detailed cockpit interior & landing gear compartment. Open or closed airbrake.

IL-2 SHTURMOVIK
Fully engraved panel lines. Highly detailed cockpit & landing gear. Canopy can be positioned open & closed airbrake.

F/A-18C "CHIPPY HO!" 2009
Fully engraved panel lines & rivet details. Highly detailed cockpit interior & landing gear compartment.

P-51C
WWII used by the American and British forces, the Mustang was clearly suited for tactical reconnaissance and its standard four U.S. Tech machine guns meant that it also had potential for ground attack.

M-21 FISHBED
The version of the Probetbed was widely used during the Vietnam and the Middle-East War.

F-104G
Designed for rapid climb and high altitude combat, the F-104G power earned it the nickname "Missile with a Man in It".

YF-16
The early prototype version of the supersonic F-16 fighter jet.

M-23S FLOGGER-B
This variable-geometry combat plane was Russia's primary tactical air-to-air fighter during the Cold War.

SPAD XIII WWI FIGHTER
One of the fastest and most famous World War I fighters, the Spad flew for the Allied forces.

SOPWITH CAMEL WWI FIGHTER
The most successful British fighter plane of World War I, the dogfighter was renowned for shooting down German ace Baron Manfred von Richthofen, "The Red Baron".

JU-87G STUKA "TANK BUSTER"
This canvas-wing dive bomber, initially flown in 1936, and ground attack aircraft tested through World War II.

F4F-4
The F4F-4 began service with the U.S. Navy shortly before the Japanese bombed Pearl Harbor in December of 1941 and saw extensive action in the Pacific.

TBF-1
Designed as a torpedo bomber, the TBF-1 speed and performance made it a constant threat to enemy ships during World War II.

MESSERSCHMITT Bf109C-14
The Bf109, which first saw action in 1937 during the Spanish Civil War, went on to become one of the Luftwaffe's most important aircraft.

1/48 V-156-B1 "CHESAPEAKE"

1/72 USN F-14A VF-143
"PUKIN DOGS"

12462

TYPHOON MK.IB

The Typhoon was well-suited for low-level attacks on shipping and armored divisions thanks to its heavy-mounted 20mm cannons and capability of carrying eight 500lb rockets.

12463

OV-10A

Equipped with night observation system, laser target designation and more powerful engines.

12464

P-51B

Widely used by the American and British forces, the Mustang was clearly suited for local reconnaissance and its standard four 12.7mm machine-guns proved that it was well-suited for ground attack.

12465

P-40M/N

Rugged and reliable, the P-40 was used in every theater of World War II by the Royal Air Force and U.S. Air Force.

12466

TEMPEST V

An evolution of the Typhoon, the Tempest featured elliptical wings, allowing for higher air speed and lower compressibility.

12467

MESSERSCHMITT BF-109G-6

The Bf 109, which first saw action in 1931 during the Spanish Civil War and went on to become one of the Luftwaffe's most important aircraft.

12468

P-40E

Rugged and reliable, the P-40 was used in every theater of World War II by the Royal Air Force and U.S. Air Force.

12471

F-14A

The U.S. Navy's premier carrier-based fighter, the F-14A is capable of Mach 2 flight and low-speed engagements thanks to its variable-geometry wings.

12455

M-23 FLOGGER-D

With the addition of terrain avoidance radar and increased armor protection, the M-23 became the ultimate ground attack fighter in the Soviet Air Force.

12456

P-40B

Before the U.S. entered World War II, many American pilots flew these planes in support of the Allied war effort. Collectively they were known as the "Flying Tigers" for their unique paint schemes.

12457

F4U-1

The F4U-1 was nicknamed "Whistling Death" by the enemy due to the roar the engine sound inspired as the plane approached.

12461

A-37B

Initially designed as a US Air Force turboprop trainer, the A-37 aircraft was later converted into a heavily armed fighter and saw flow in Vietnam.

12474

P-47D "EILEEN"

The P-47D's heavy load of armament, including eight 1/2-inch guns, and its powerful 2,300 horsepower engine earned it the affectionate nickname "The Jug".

12475

F-117A STEALTH FIGHTER/BOMBER

The unusual design of the F-117A allows for almost complete radar invisibility, enabling this plane to fly undetected over enemy positions.

12478

F-15E

This new version of the F-15 was modified to accommodate a second person and to carry long-range missions.

12480

FOCKE-WULF FW 190A-6/8

Although it never achieved the same success as the Messerschmitt, the Focke-Wulf would prove to be one of the greatest fighters of World War II.

12481

FBF-3/5

A carrier-based fighter, the FBF-3/5 played an instrumental role in the Pacific theater, achieving a major victory for the Allies in the Battle for the Philippines Sea.

12484

SPITFIRE MK.XIVc

The Mk.XIVc model of the British workhorse Spitfire plane featured a strengthened airframe designed to hold the weight of a larger engine and five-blade propeller.

12485

P-51D

The P-51D was the major production version of the Mustang, equipped with a bubble canopy and six 12.7mm machine guns.

12487

PBV-5A

The U.S. Navy favored the PBV-5A's amphibious design over the preceding PBV-5.

12488

AH-64A

This highly agile and well-armed U.S. Army attack helicopter first flew in 1976, saw extensive action in both Operation Just Cause in Panama and Operation Desert Storm in the Middle East.

12492

P-47D "RAZOR-BACK"

Originally criticized for its size and weight, this older P-47 was called the "Razorback" because of its narrow, curving top line.

12493

ZERO FIGHTER TYPE 52C (A6M5C)

Designed to counter the superior Allied air forces, the 52C was the heavy armed version of the famous Zero fighter, which was eventually used in the feared kamikaze attacks.

12495

B-17F "MEMPHIS BELLE"

Bomber and crew logged 27,800 combat miles and dropped more than 61 tons of bombs.

1/72 ROKAF F-15K
"SLAM EAGLE"

12506

F-15C MSP II "173rd FIGHTER WING"
Additional new parts like AM-78, AM-120C, special antennae, fuel tank etc. Three optional markings included.

12510

IL-2M SHTURMOVIK
Highly detailed cockpit & landing gear. Fully engraved panel lines.

12512

SPITFIRE Mk.XIVc & TYPHOON Mk.Ib
Kit includes both planes. Detailed cockpit & landing gear. Fully engraved panel lines & rivet details. Two optional marking per each aircraft by cartograf.

12513

Fw190A-8 & P-47D
Marking of Fw190A-8 known as "Sally" in D-day. Fully engraved panel lines & details. Reproduction of early P-47D RAZORBACK. Detailed cockpit interior & landing gear.

12514

US ARMY AH-64D BLOCK II
Accurately reproduced AH-64D acted in IRAG WAR 2003. Detailed cockpit and twin engine. Various air-to-surface and air-to-air weapons included.

12515

USN F-4J "SHOWTIME 100"
Build a detailed replica with Multi-Colored Parts (MCP) no painting needed. Assembles without glue. Sticker and decal included. Accurate, finely engraved panel lines and rivet details.

12517

USAFAF B-29A "OLD BATTLER"
Highly detailed cockpit interior & bomb bay. Fully engraved panel lines & rivet details. Optional position landing gear & bomb bay door.

12519

ROKAF T-50 ADVANCED TRAINER
Assembles without glue. Multi-Colored Parts (MCP) no painting needed. Accurately detailed panel lines and rivet details. Sticker and display stand included.

12520

USMC F/A-18A+ VMFA-232 "RED DEVILS"
Accurately detailed panel lines, rivet details, cockpit and landing gear. Configurable vertical tail fin, canopy and air brake. Various weapons included.

12521

USN F-8E VF-162 "THE HUNTERS"
Accurately detailed panel lines, rivet details, cockpit and landing gear. Assemble with air brake open or closed. Various weapons included.

12528

USAFAF B-29A "ENOLA GAY & BOCKSCAR"
Accurate, finely engraved cockpit interior & bomb bay. Accurately detailed panel lines & rivets. "Enola Gay" and "Bockscar" included. Choice of two markings: "Enola Gay" and "Bockscar".

12529

USN F-4J VF-84 "JOLLY ROGERS"
Build a detailed replica with Multi-Colored Parts (MCP) no painting needed. Assembles without glue. Sticker and decal included. Accurate, finely engraved panel lines and rivet details.

12530

P-47D & F-86E "GABRESKI"
"Gabri" Sabinski became a U.S. fighter ace in WWII and again in the Korean War. These are the aircraft he flew. Assemble with canopy open or closed. Precisely detailed cockpit and landing gear.

12533

USAFAF B-17E "PACIFIC THEATER"
This most heavily armed bomber in the Pacific Theater of operations. Precisely engraved cockpit & landing gear. Accurately detailed panel lines & rivets.

1/72 F-35A "7 NATIONS AIR FORCE"

12534

USN F/A-18C VFA-82 "MARAUDERS"
Accurately detailed panel lines & rivets. Precisely engraved cockpit & landing gear. Assemble with canopy open or closed. Various air-to-surface and air-to-air weapons included.

12535

USN F/A-18F VFA-103 "JOLLY ROGERS"
Current version of USN carrier based aircraft. External fuel tank, weapons includes AIM-9X, AIM-120C, GBU-38 and targeting pod. Multi-Colored Parts (MCP) no painting needed.

12537

BRITISH ARMY AH-64D "AFGHANISTAN"
This multi-role combat helicopter saw action with the British in Afghanistan. One-piece main rotor. Accurately detailed cockpit and twin engine. 30mm chain gun, 70mm rocket pod, AGM-119 included.

12538

L-2 M & PANTHER D
Kit contains both WWII L-2M Soviet Army bomber & Panther D German tank. Display stand included. Photo-etched parts.

12539

Ju 87G-2 & JS-2
Kit contains both WWII Ju 87G-2 German army bomber & JS-2 Soviet army tank. Display stand included.

12541

USAF F-16C "MULTIROLE FIGHTER"
Assembles without glue. Multi-Colored Parts (MCP) no painting needed. Accurately detailed panel lines and rivet details. Sticker and display stand included.

12542

Me262A-1/2 "LAST ACE"
Choice of two markings: "Fighter Me262A-1a" and "Bomber Me262A-2a". Accurately detailed panel lines & rivets. Precisely engraved cockpit & landing gear compartment.

12545

USN SB2C-4 "OPERATION ICEBERG"
WWII US Navy dive bomber. Accurately detailed panel lines & rivets. Precisely engraved cockpit, landing gear & bomb bay. One flap and other photo-etched parts included.

12546

F-86F "KOREAN WAR"
Korean War jet fighter. Accurately detailed panel lines & rivets. Precisely engraved cockpit & landing gear. Includes Cartograf decal with three marking options.

12547

USN F/A-18E VF-143 "PUKIN DOGS"
Includes Cartograf decal with two marking options. Precisely engraved cockpit & landing gear. Accurately detailed panel lines & rivets. Various air-to-surface and air-to-air weapons included.

12548

USN F2H-3 "VF-41 BLACK ACES"
1950's U.S. Navy and Royal Canadian Navy Jet Aircraft. Includes seven marking options. Precisely engraved cockpit & landing gear. Accurately detailed panel lines.

12550

USAF F-15E "333RD FIGHTER SQUADRON"
U.S. Air Force all-weather, multirole combat aircraft. Accurately detailed panel lines & rivets. Various air-to-surface and air-to-air weapons included.

12551

U.S. ARMY AH-64D BLOCK II "LATE VERSION"
Newer version of the Apache helicopter. No glue required. Includes AGM-119, AGM-120C, and other weapons. Accurately detailed panel lines and rivets. Precisely engraved cockpit and landing gear. Includes external fuel tank, air-to-air missile, and targeting pod.

12554

ROKAF F-15K "SLAM EAGLE"
Build a highly detailed replica with Multi-Colored Parts (MCP) no painting needed. Precisely engraved panel lines, rivet details, cockpit and landing gear. Includes external fuel tank, air-to-air missile, and targeting pod.

1/72 USN F/A-18E VFA-195 "CHIPPY HO"

aircraft

1/72 USN SB2C-4 "OPERATION ICEBERG"

USN F/A-18C "VFA-192 GOLDEN DRAGONS"
Automatically detailed panel lines & rivets. Assembly with canopy open or closed. Versatile air-to-air and air-to-ground weapons included. Precisely engraved cockpit & landing gear.

USN F/A-18E "VFA-195 CHIPPY HO"
Single-seat, twin-engine, carrier capable, U.S. Navy, multirole fighter can be armed with air-to-air and air-to-ground weapons.

F-15
Designed specifically to be a superior fighter jet, this plane carries an astounding array of air-to-air and air-to-surface weapons.

F-4E
Considered as the leading all-round combat aircraft of the 1960s, the Phantom is capable of Mach 2-plus speeds.

SEPECAT JAGUAR
A lightweight support aircraft, this British and French jet can carry a vast array of weaponry, including the ANS2 tactical nuclear weapon.

PANAVIA TORNADO
Known as an MRCA (multi-role combat aircraft), the Tornado is the result of a collaboration between Germany, Italy and Britain for use as their primary interceptor.

F-14
The U.S. Navy's premier carrier-based fighter, the F-14A, is capable of Mach 2 flight and low-speed engagements thanks to its variable geometry wings.

F-15C
Designed specifically to be a superior fighter jet, this plane carries an astounding array of air-to-air and air-to-surface weapons.

USMC F-4J "VMFA-232 RED DEVILS"
USMC twin-engine, multirole, standard jet aircraft. Drop tanks, air-to-air missiles, bombs included. Precisely engraved cockpit & landing gear. Automatically detailed panel lines & rivets.

USN E/A-18G VAQ-141 "SHADOWHAWKS"
USN carrier-based, electronic warfare aircraft, a specialized version of the F/A-18. AN/ALQ-99 and AN/ALQ-99 electronic warfare systems, AN-119 air-to-air missile and drop tanks included.

F-35A "7 NATIONS AIR FORCE"
Latest stealth, multirole fighter designed by USAir Force.

USN F-14A VF-143 "PUKIN DOGS"
Superior, twin-engine, variable-sweep wing fighter used by the U.S. Navy as an superiority fighter, fuel defense interceptor and as tactical aerial reconnaissance missions.

F-16
This lightweight single-seat fighter jet is one of the United States' best air-to-air combat fighters.

F-4F
Considered as the leading all-round combat aircraft of the 1960s, the Phantom is capable of Mach 2-plus speeds.

M-23 FLOGGER
A variable geometry air-combat fighter used as a primary air-to-air tactical aircraft in the Soviet Air Force.

M-29 FULCRUM
This superior air superiority and ground attack fighter, first flown in 1988 and shares many similarities with the American F/A-18 Hornet.

USAF B-47 "306TH BW(M)"
Cold War era, U.S. Air Force nuclear bomber. Can be built as B-47 or B-47. Accurately detailed panel lines.

USAF B-1B 34TH BS "THUNDERBIRDS"
U.S. Air Force's supersonic variable-sweep wing strategic bomber with improved electronics, airframe and low-altitude performance.

AERO DISPLAY STAND
You can display up to the maximum three models and fix multiple stands by included connecting parts.

NEW GOD PHOENIX
Special Effect parts. Five G-vehicles (G1, G2, G3, G4, G5). Five Gatchesmen of various size figures. Display stand.

SHUTTLE & 747 CARRIER
To transport the Space Shuttle to destinations around the U.S., the space agency modified a Boeing 747 to carry the Shuttle spacebay-style.

SPACE SHUTTLE W/BOOSTER ROCKET
The Space Shuttle flew numerous missions over two decades from 1981, deploying satellites and acting as a laboratory.

Sci-Fi
Special Effect parts. Five G-vehicles (G1, G2, G3, G4, G5). Five Gatchesmen of various size figures. Display stand.

1/144 USAF B-1B 34TH BS "THUNDERBIRDS"

NEW

German Sturmpanzer IV Brummbär

1/35 SCALE
The heavy assault gun built on Panzer IV chassis with 15cm main gun was used by WWII German army for infantry support.

ACADEMY
PLASTIC
MODEL

Academy Plastic Model Co., Ltd.'s armor model kits include a wide range of tanks, infantry, and accessories from WWII to the present. Kits are compatible with most scale dioramas. The realism of these models provides the builder with hours of enjoyment.

NEW ITEM
2020

GERMAN PANZER III
WW2 German medium tank's later variant with additional armor and upgraded gun developed for anti-tank role

GERMAN STURMPANZER IV BRUMMBÄR
The heavy assault gun built on Panzer IV chassis with 15cm main gun was used by WWII German army for infantry support.

GERMAN PANZER IV "VERLÄTE" / "AUSE" / "VERLÄR"
The most famous WW2 German tank, armed with 7.5cm/48 main gun.

PZ.KPFW.V PANTHER AUSEG "VERLÄR"
WW2 German medium tank with sloped armor and 7.5cm/75 main gun.

U.S. ARMY M4A3E8 "KOREAN WAR"
U.S. Army medium tank with wide tracks and HVSS, deployed during the Korean War.

M4A2 SHERMAN "RUSSIAN ARMY"
The diesel engine version of the famous U.S. Sherman tank, saw extensive action in the Pacific Theater and Russian front during World War II.

WARRIOR MCV "IRAQ 2003"
British Army's main MCV used in Civil Wars in EU, Yugoslavia as well as Iraq War recently.

1/35 MERKAVA MK.IID

13202 13217

M1A1 ABRAMS "IRAQ 2003"
The M1 Abrams was designed by the General Dynamics Corporation and first entered U.S. Army service in 1983. An improved version of the M1, the M1A1 was introduced in 1985.

SWEDISH INFANTRY FIGHTING VEHICLE CV9040B
An accurate reproduction of the CV9040B. Articulated track & fender track included. Spare of whole body figure included. Metal gun barrel & photo-etched part included.

13219 13227

R.O.K. ARMY K9 SELF-PROPELLED HOWITZER
Accurately reproduces the 120mm howitzer & suspension. Matches can be positioned open or closed. Spare of R.O.K. Army figure included.

MERKAVA MK.IV LIC
Applies armor & modeled artillery surface. Highly detailed parts. Includes Israeli infantry and tank driver figures.

13220

GERMAN KING TIGER "LAST PRODUCTION"
King Tiger, the last German heavy tank in WWII - all new casting.

13230

JAGDPANZER 38(t) HETZER "LATE VERSION"
Camouflage patterns marking tape included. Two figures and photo-etched parts included.

13233

GERMAN PANZER IV H W/ARMOR
The Panzer IV had two primary purposes. First, as a highly mobile artillery unit, and second, as an important component of fast-moving tank columns. Shown here with tread armor.

13234

GERMAN PANZER IV H
The Panther's speed and powerful 7.5cm KwK43 cannon quickly made it into one of the most feared battle tanks in World War II.

13235

STURMGESCHÜTZ IV
A German elaboration of the Panther chassis, the "Stug" as it was commonly called, served to the Eastern front from 1943 until the end of the war.

13236

GERMAN WIRBELWIND
A mobile World War II anti-aircraft gun, the Wirbelwind (Whirlwind) allowed the German soldiers near the front lines to defend against bombing runs.

13237

M-2 BRADLEY IFV
Fast and well protected, this armored personnel carrier allows the troops inside to fire their weapons at ease by armor.

13238

GERMAN TIGER I "EARLY VERSION"
Introduced to the battlefield during the latter stages of World War II, the heavily armed Tiger proved to be more than a match for its Russian counterparts.

13255

U.S. ARMY M18 HELLCAT
The Hellcat is U.S. light tank, seen extending action in the Formosa of Europe during World War II.

13262

U.S. MACHINE GUN SET
Machine gun set used by the Allies during World War II & modern U.S.

13264

TIGER I WWII TANK "EXTERIOR MODEL"
The heavily armed and well-armed Tiger was one of the best German tanks made during World War II but was too slow to transport fast.

13266

M113A1 VIETNAM VERSION
The amphibious M113A1, with ability to carry an infantry of ten, made it a prime choice as a personnel carrier in waterlogged jungles of Vietnam.

13267

I.D.E. MERKAVA MK III
The Merkava III differs from its predecessors in that it features a 120mm cannon and computerized fire control system that significantly increases accuracy.

13268

U.S. M3A1 STUART LIGHT TANK
The M3 STUART was one of the successful light tanks made during WWII. The Stuart was used from the Pacific to Europe.

13270

BRITISH M3 STUART "HONEY"
This famous light tank built in America and shipped to Britain during World War II, it was re-equipped for the British version.

13278

JAGDPANZER 38(t) HETZER "EARLY VER."
Reproduction of assault gun of German army during WWII. Early version of engine deck, muffler, road wheel, and motor. Muffler mesh and engine mesh in photo-etched parts. Two figures included.

13279

U.S. ARMY M36B1 GMC
Reproduction of vehicle that combine 90mm gun turret on medium tank M42 hull and chassis. New molded part of engine deck, VWS, other accessories etc. Photo-etched part and T&B track included.

13280

GERMAN LIGHT TANK Pz.Kpfw. 35(t)
Marks of both French and Russian front included. Two whole body figures included. Semi-connecting tracks.

13281

MAGACH 6B GAL BATASH
Reproduction of ISA armor on upper turret and front body. Turn, Basket, Under Cooke, and Side Skirt from new tooling. Reproduction of ISA armor on upper turret and front body. Optional assembly of two commander's hatches.

13286

MERKAVA MK.IID
105mm main gun, turret, basket, and two kind of side skirt from new tooling. Reproduction of ISA armor on upper turret and front body. Optional assembly of two commander's hatches.

13287

TIGER I MID VER.
New looking of asymmetry turret, mantlet, 88mm cannon, engine deck and accessories. X-treme tool included. Photo-etched engine grill.

13288

U.S. ARMY M10 GMC
New molded part of upper hull, turret, transmission cover, etc. Reproduction of M10 "Early version" turret. Eight optional markings included. Photo-etched parts included.

13290

T-34/85 "No. 112 FACTORY PRODUCTION"
Reproduction of Russian T-34/85 tank used during WWII and for export. Accurately reproduced turret manufactured from no. 112 factory. Photo-etched parts included. Six optional markings included.

13294

M4A3 SHERMAN W/ T34 "CALLOPE"
136-millimeter rocket launcher mounted on M4A3 turret. Equipped with Dussk's tracks. Rocket launcher part from Italian included. Photo-etched part included.

1/35 MAGACH 6B GAL BATASH

13295

T-34/85 NO.183 FACTORY "BERLIN 1945"
 Soviet T-34/85 tank built in the factory No.183 in Berlin in WW2. Tank made in factory No.183. Blazing armor is produced on the body and turret to protect against hand-held anti-tank weapons.

13296

M60A2 PATTON
 Accurately reproduced turret, cupola, engine grilles, road wheels. An M48 turret with M102 102mm gun turret for dismount with hatch open or closed. Semi-connected tracks included.

13297

MAGACH 7C "GIMEL"
 New turret, large external storage basket, passive armor array, armored side skirts, and T-800mm Pk MAG machine gun. A modernized Israeli army tank. It is a variant of the M48.

13298

U.S. ARMY M1A2 TUSK II
 Current version of U.S. Army M1A2 tank. Includes V2, TUSK I, TUSK II with three mounting options. Flexible tracks, CROWS and machine armor included. Features armor and turret parts V2, TUSK I, TUSK II. Connect photo-etched parts.

13313

GERMAN COMMAND TANK Pz.II (w.p. 35(t))
 Long range antenna included. Assembly with hatches open or closed. Modified German light tank with long range antenna. New action early in WW II. Photo-etched parts included.

13314

TIGER-I (Ver. LATE)
 Turret track included. Photo-etched engine grille included. New tooling of asymmetric turret. 88mm cannon, mantlet, engine deck and accessories.

13415

M1151 ENHANCED ARMAMENT CARRIER
 Two crew member figures included. Accurately reproduced 60 cal gun. New style wheels and tires. Photo-etched turret included. Positionable turret and accessories.

13500

M4A3(76)W "BATTLE OF THE BULGE"
 WWII US Army main battle tank. Newly tooling parts, engine deck, late version VWS and accessories. Accurately reproduced 76mm main gun and M2 12.7mm machine gun. Includes full Dorrable track. Photo-etched parts. Includes color vinyl film options.

13501

M36/M36B2 "BATTLE OF THE BULGE"
 WWII U.S. Army tank destroyer. 90mm main gun and a 33-caliber machine gun. Newly tooling parts: upper hull, transmission cover. Can be built as M36 or M36B2. Photo-etched parts.

13502

GERMAN T-34/76 747 (w)
 WWII German Army T-34/76 tank. Two types of cupolas & turret storage bins. Track links partially assembled. Photo-etched parts included.

1/35 M60A2 PATTON

13504

U.S. ARMY M1A2 V2 TUSK II
 Detailed CROWS, the shaped reactive armor and start armor. Can be built as V2 or V2 TUSK II. Newly tooling turret and armor to protect the turret. Build with cast rubber or connected track.

13505

USSR T-34/76 "NO.183 FACTORY PRODUCTION"
 WWII Soviet Union army tank. Can be built as T-34/76 with 76mm main gun or T-34/76 with flame thrower. Build as turret or cupola version. Photo-etched parts included.

13507

US ARMY M163 VULCAN
 WWII Soviet anti-aircraft tank. Can be built as T-34/76 with 76mm main gun or T-34/76 with flame thrower. Build as turret or cupola version. Photo-etched parts included. Features semi-connected tracks. Three types of road wheels.

13509

GERMAN TIGER-I (Ver. EARLY "OPERATION CITADEL")
 WWII German Army tank for Operation Citadel. New tooling with asymmetric turret, 88mm main gun and mantlet. Early version connected tracks included. Features photo-etched parts.

13511

R.O.K. ARMY K2 "BLACK PANTHER"
 R.O.K. Army's newest main battle tank. Carefully reproduced 105-caliber L70 105mm main gun and M machine gun. Can be built with or without Explosive Reactive Armor. Features patented light armor.

13516

GERMAN PANZER IV Ausf. H "VER. MID"
 WWII German Army medium tank. Detailed Ausf. H mid-production version made late in 1942. Features 75mm main gun and MG42 machine gun. Build with hatches open or closed. Dismant coating detail included. Flexible rubber tracks.

13519

FINNISH ARMY K9FIN "MOKKARI"
 Finnish Army self-propelled howitzer acquired from South Korea. 150mm main gun. Main gun can be built in raised or depressed position. Flexible rubber tracks included. Includes Finnish Army markings.

13523

PZ.KPFW.V PANTHER AUSEG "LAST PRODUCTION"
 WWII German medium tank with sloped armor and 7.5cm KwK 42 main gun. Photo-etching includes: side mantlet, engine heater and exhaust pipe of final production version. Features semi-connected tracks. Connect photo-etched parts.

13522

GERMAN STUG IV SD.KFZ.167 (Ver. EARLY)
 WWII German Army assault gun. Features 75mm 50xk L48 gun and MG42 machine gun. Build with hatches open or closed. Contains four marking options. Flexible rubber tracks.

13521

USSR M10 "LEND-LEASE"
 American M10 tank destroyer produced for USSR under the Lend Lease program. The 3-inch main gun. 30-caliber machine gun accurately reproduced. Accurately reproduced crew compartments. Features like photo-etched legs. Photo-etched parts included.

48
SCALE

(MOTORIZED) 13001

FRENCH MBT LECLERC
 French Army's newest main battle tank.

72
SCALE

13416

LIGHT VEHICLES OF ALLIED & AXIS DURING WWII
 Accurately reproduced of light vehicles used by Allies and Axis. Great complement for 1/72 diorama.

1/35 U.S. ARMY M1A2 V2 TUSK II

1/35 R.O.K. ARMY K2 "BLACK PANTHER"

Da Vinci SERIES

✓ NO GLUE ✓ NO PAINT ✓ NO BATTERIES

2020 NEW!

Double-pulley 18180 crane

By dispersing the weight, a multi-pulley reduces the amount of effort needed for a crane to lift heavy objects.

Sundial 18184

The sundial can determine the time through changing shadows as the sun 'appears' to continuously move.

Model of the arch bridge designed by Leonardo da Vinci. The design uses a self-supporting arch concept to distribute weight through the full curve of the arch. The kit is a replica of the oldest known arch bridge design.

18153 SERIES 9 Arch bridge

The first robot-cart in history designed by Leonardo da Vinci. Spring powered.

18129 SERIES 1 Self-propelling cart

Developed from an original da Vinci design. Paddle wheels and blades contoured for efficient propulsion. Power is transmitted by gears and sprockets through sawtooth wheel. Mechanical spring propels the boat on the surface of the water.

18130 SERIES 2 Paddleboat

Armored combat vehicle designed by Leonardo da Vinci. Like today's armored vehicles, it offers maximum protection when attacking. Creative interior safety design mimics the layout of current armored vehicles. Mechanical-spring operation.

18136 SERIES 3 Armoured car

Catapult used for siege warfare designed by Leonardo da Vinci. Like a crossbow, catapult force is obtained from two flexible limbs and ropes.

18137 SERIES 4 Catapult

Mechanical Drum designed by Leonardo da Vinci. Changing the positions of the cams will change the rhythm and beat of the drum. Assemble two ways - As a Cart or as a Stand.

18138 SERIES 5 Mechanical drum

Reproduced retractable cannon designed by Leonardo Da Vinci. Launcher with adjustable angle. Actual loading and shooting possible.

18142 SERIES 6 Spingarde

A flying machine of Leonardo da Vinci inspired by birds. You can move the wings using the conversion of rotary motion in reciprocating motion from another invention of Leonardo.

18146 SERIES 7 Flying machine

The clock uses the pendulum's weight as its power source. Power is harnessed from a horizontal rotary pendulum design. Clock speed is controlled by adjusting the weight and balance of the pendulum. Assemble the clock in either a wall mounted or standing configuration.

18150 SERIES 8 Clock

The kit is a replica of da Vinci's Aerial Screw design, a forerunner of the modern helicopter. Structurally unable to fly, da Vinci's design stimulated curiosity about the possibility of vertical flight. A mechanical spring controls rotation and vertical movement of the fuselage.

18159 SERIES 10 Helicopter

Based on da Vinci's work, the kit uses the laws of motion and a 'flying' pendulum escapement to keep accurate time.

18157 SERIES 11 Flying pendulum clock

The da Vinci Rolling Ball Timer is based on a sketch of an escapement mechanism drawn by Leonardo da Vinci. The kit uses the principles of gravity and kinetics to measure the passage of time. It employs precision gears to power a platform in a 'see-saw' position that propels a rolling ball. When complete, the model exhibits a fascinating demonstration of the laws of motion and delivers hours of entertainment.

18174 SERIES 12 Rolling ball timer

A mechanism for lifting heavy objects. Reproduced from a Leonardo da Vinci drawing. Uses a reciprocating lever, wheels and gears to lift objects.

18175 SERIES 13 Leverage crane

Educational Kits ACADEMY STEM

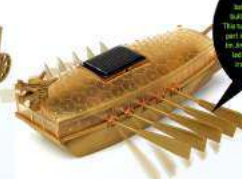

This educational science kit fosters creativity through the assembly of a gyro rail car and exhibits the laws of motion and the principles of gyroscopes.

ONE-LEGGED DRIVE GYRO RAILCAR 18179

Reproduction of the first steam locomotive 'Penydarren'. Piston and gear movement using spring power. Display stand included. Easy to assemble - tools not required.

18133 Steam locomotive 'Penydarren'

See the process of solar energy being converted into electric power and again into kinetic energy. Complete with highly efficient solar cell and motor. Display stand included. Easy to assemble - tools not required.

18135 Solar powered turtle ship

FACT! The Gyro Rail is the world's first wheel mounted gyroscope which was invented and built by Achille Flourens in 1812. The Gyro Rail was the first gyroscope ever built and it was used during the war 1812-1814, and successfully demonstrated the ability to balance, regulate, govern all sides, and update to present times.

Kit demonstrates the process of converting wind into useable power. Maximum car speed is determined by number of blades, wind velocity, and direction. Easy to assemble - tools not required.

18140 Wind powered car

Operates by supplying compressed air to a balloon that forces the air through a dual cylinder to help propel the car.

18183 Air engine car

Eight Multi-jointed legs accurately duplicate the walking movement of real spiders. Two assembly choices to change the stride length and gait.

18141 Spider robot

Kayak robot is powered by a motorized mechanism that creates a reciprocating rowing movement. Demonstrates principles of mechanical link and joint mechanisms. Helps develop creativity and concentration.

18156 Kayak robot

Designed for the Aerospace kit; the materials used were carefully chosen for optimum performance like those of the real T-50.

18156 Aerospace T-50

Shoot the condenser airplane higher and farther with the Shooting Gun; Children 8 and up can easily fly it.

18566 Aero Shooting gun

ACADEMY S.T.E.M is STEM Science Technology Engineering Mathematics This is a series of science kits made by Academy to help make learning the principles of science enjoyable.

Leonardo da Vinci 1452-1519 Italian scientist and artist, born during the Renaissance era, widely regarded as the most talented industrial inventor and designer, including many aspects of modern science and technology.

Academy Da Vinci Series displayed at the place where Leonardo Da Vinci lived and died, located in the city of Amboise, France.

SINCE 1969

Academy Plastic Model is proud that we have built quality products and obtained a technical achievement with moulding and modeling expertise, using the latest CAD/CAM technology for the last four decades.

We began our business producing plastic model kits. Our success with these kits led us to develop other outstanding categories such as R/C and educational kits, utilizing hobby quality and technology.

Since 1969, Academy Plastic Model has introduced a wide range of products. They all have one thing in common: each product meets stringent quality standards and exceeds the highest customer expectations.

세계일류상품

MODEL OF YEAR IN NURNBERG INTERNATIONAL TOY FAIR

We have been producing plastic model kits for 51 years since we were established in 1969. We truly believe that developing excellent products lets us thrive in the competitive world market. Through the endeavors of all the members of Academy Plastic Model, Co., Ltd., we have progressed as a sound enterprise. As a result of endless research and development, we have many times been awarded "Model of the Year" at the Nurnberg International Toy Fair. We continue through the 21st century with new resolve and past years' know-how to produce the world's best quality models.
